

Illinois Archives Month 2009

The theme for Illinois Archives Month 2009 is transportation/travel. Photographs from a number of Illinois archival institutions depicting methods of transportation are imposed over a road map of the state of Illinois. The poster aims to convey to its targeted audience of historians, researchers, educators, students, and the general public the accessibility of Illinois archives and the diversity of their collections.

A poster was mailed to archives and public libraries in Illinois. It also is available as a downloadable PDF file at the Illinois State Historical Records Advisory Board's Web site (http://www.cyberdriveillinois.com/departments/archives/ishrab/archives_month/participate.html).

In all, 3,000 posters were printed for distribution.
