

TSDS 2003-2004 Annual Report
Submitted to Chair, SAA Standards Committee
By Bradley D. Westbrook, Chair of TSDS
4 August 2004

In comparison to earlier years for TSDS, 2003-2004 was very quiet and uneventful.

It began, in the immediate wake of the 2003 meeting, with an invitation from the DA:CS editorial board for TSDS members to read and comment on the preface to DA:CS, and it concluded with an invitation from the same group for TSDS members to read and comment on the completed standard. That feedback was direct between TSDS members and Kris Kiesling, chair of the DA:CS editorial board and was not coordinated by TSDS.

TSDS members were also invited last fall to read and comment on the Online Archive of California Best Practice Guidelines for EAD finding aids. This was coordinated by TSDS and resulted in several responses that were important contributions to the final stages of completing that document.

Also, TSDS was not asked to endorse any 2004 session proposals last fall.
